Continuous Evidence

Genesis 12:1-9

The mystery of Christ never ceases. It is only natural that, as time goes on, more fruits and evidence arise. The covenant of Christ conquers, restores, and saves and is not influenced by anything in this world—such as age or circumstances. However, if something contrary to this truth is occurring, it means that something is incorrect within our walk of faith.

1. **Altar – Fundamental**
    1) Abraham continued to build the altar regardless of the reason
    2) There is no such record regarding Lot
    3) The difference between addressing the fundamental problem
    4) The fundamental covenant that crushes the head of the serpent

2. **Word – Pulpit**
    1) Abraham continually received the Word
    2) Lot didn't have the pulpit
        (1) He neither carried out the fundamental covenant nor had the specific word
    3) If Joseph had not received the specific word through his dreams—wandering and confusion about how to interpret the problems

3. **Word**
    1) Specific message that fulfills the covenant
    2) Answer to start again and overcome
    3) Mystery to open closed doors and our eyes
    4) Path to go on the biblical journey

4. **Conclusion**
    1) When we continuously receive specific words within the fundamental covenant, our lives will become a masterpiece.
    2) When we come to the answer of the Gospel, we come to confess, "This is my Gospel." We will judge everything through the eyes of the Gospel.
    3) Those who have the lifelong covenant head out knowing everything about the future. The 7 Remnants were like that.
