Destroy Satan's Bartizan

Genesis 3:15

There was a word that we just need to ask questions. Questions are important because they become an essential condition for complete communication. When communication takes place through questions, it becomes easier to understand the reasons and find the answers. If we do not receive God's will through asking questions, everything we do becomes our own and is changed into something for ourselves. Even if we carry out what seems to be God's greatest desire, God may still have His own method and timetable.
