The Highway of World Evangelization

Acts 1:8

The beginning of Apostle Paul's world evangelization started at the Antioch Church, after approximately 10 years of reflection, organization, and prayer after he met the Lord and heard the Gospel. He revived the church, raised up many committed workers, and through that door saved the field outside the church. He awakened people to the gospel, personalization, and the church, went to the field according to the Word, met important disciples, and later concluded his world evangelization in Rome — a meeting without reason.

    1) When your eyes are opened to evangelism, you begin to see people, you see what needs to be done, and conviction comes.
    2) The life answer is receiving the Word, and the answer to evangelism is the Word movement. Anyone who continues will know.
    3) Receiving the Word is learning directly from God. Before that, there is nothing even other people can do to help.
