Spiritual Emperor who Sees in Advance

Sunday Core Worship

Genesis 37:1-11

We have received many important words like the spiritual emperor who saved the emperor. We must listen to the message again, organize the content, and make it my own. How can we live the same kind of life as the figures in the Bible? We can make their lives our prayer topics. We simply need to hold Christ as our covenant and follow their lives.

1. **The Word Needs to Enter**
   1) Spiritual strength arises.
   2) No longer shaken by circumstances or by what people say.
   3) God shows us what we should do and how to do it.
   4) We discover that they were things we should rightfully have been doing all along.

2. **The Word Given for the Fulfillment of the Word We Have Received**
   1) Because the Word has entered into us, we naturally begin to pray.
   2) God continues to give us more ideas and allows us to see the field.
   3) Continuously make it centered on the field.
   4) The path to world evangelization — biblical evangelism.

3. **Time of personally organizing and meditating on the Word**
   1) We must listen until the message becomes organized.
   2) God does according to His Word.
   3) One Word that enters our hearts is the beginning.
   4) A big conference brings great answers.

4. **Church**
   1) The church must continue to raise up spiritual emperors.
   2) Word movement within the church first. – The answer to solving problems is the Word movement – Individual, Family, Church, Field.
   3) Ministers who can carry out the Word movement – officers who meet without reason – Remnants who are spiritual emperors.
   4) We must develop and implement many strategies for regional evangelization – Among all these strategies, the strategy of strategies is the Word movement within the church.
